Buddhist Path, Buddhist Teachings

Studies in Memory of L.S. Cousins

edited by Naomi Appleton and Peter Harvey

DESCRIPTION:
This collection brings together scholarly contributions relating to the research of Lance Cousins (1942-2015), an influential and prolific scholar of early Buddhism. Cousins' interests spanned several related fields from the study of Abhidhamma and early Buddhist schools to Pāli literature and meditation traditions. As well as being a scholar, Cousins was a noted meditation teacher and founder of the Samantha Trust. The influence of Cousin's scholarship and teaching is felt strongly not only in the UK but in the worldwide Buddhist Studies community.

The volume is introduced by Peter Harvey and the following chapters all speak to the core questions in the field such as the nature of the path, the role of meditation, the formation of early Buddhist schools, scriptures and teachings and the characteristics and contributions of Pāli texts. The volume is of interest to students and scholars in Buddhist Studies, Religious Studies and Asian Studies as well as Buddhist practitioners.
