

Giza Reports 1

Project History, Survey, Ceramics, and Main Street and Gallery III.4 Operations

edited by Mark Lehner and Wilma Wetterstrom

DESCRIPTION:

While the builders of the Giza pyramids built amazing monuments for pharaohs Khufu, Khafre, and Menkaure, they also created one of the earliest examples of urban planning. When the last Giza pyramid was completed, the Lost City was abandoned and forgotten until its rediscovery within the past two decades.

Giza Reports details our work at the settlement of the pyramid builders. The volume is illustrated with 196 line drawings and 96 black and white photos. It also includes two large fold-out maps: a topographical map of the Giza Plateau and a map of the excavation site.
